Newsletter January 3rd 2018

Dear clients,

Here at the farm everything is running smoothly. As usual, we did not finish all our projects before the snow and cold...we always run out of time, energy and money around this time of year!

What a road have we traveled! When we bought the farm six years ago, we were looking for a quiet and simple life while doing our part to change the world for the better. Building a truly sustainable business is much harder and longer than we thought, but we are getting closer and closer.

Things seem to be working out with our new abattoir, although some small details need to be ironed out. There are not many farms that focus on quality, so the infrastructure and knowledge-base are seriously lacking in Québec. Know that we are working on it and we are not alone!

The ground beef specials are available again and we decided to offer you a Berkshire Package for \$200 as well. That way you can save a little without having to buy a whole pig (230 lb carcass). Scroll all the way down on the order form to see the specials!

Our new sausages (gluten-and-all-the-other-stuff- they-usually-put-in-and-that - you-never-even-hear-about free) are real and awesome. You have to cook them slower and a little more than your run-of-the-mill sausage.

Deliveries for January are on
